

## TRN 600 (S): New generation of Transducer

**TRN 600** is the new generation of transducer designed to increase the performance of Noise Generators.

### Features

- TRN600 – Piezo output
- TRN600S – Speaker output with Vibration capability
- Light weight – 45 g (TRN600) 50g (TRN600S)
- Easy to connect – RJ11 Jack
- Compact size – W 60 mm x H 24 mm
- Direct attachment to window or wall produce more efficiency of output and reduce leaked noise
